DEPARTMENT OF LAW

1974 Operations Plan—Summary

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
I. General Counseling			
A. Contracts, Leases and Grants	Draft, review and approve all legal instruments and documents relative to the conduct of municipal affairs.	Contracts entered into by the City to secure services, materials or supplies require the Department's review and counseling. The adequacy of the contract form and the legality of the undertaking are tested against relevant statutes and ordinances. City leases of property for municipal purposes and applications to the state and federal governments for grants-in-aid are prepared and reviewed by the Department to assure their legal status.	$ 260,278
B. Ordinance Drafting and Legislative Review	Provide City departments with the legal judgments and drafting skills required to prepare legally sufficient ordinances and bills.	City departments, in meeting their assignments, may suggest the need to revise, expand or clarify municipal ordinances. Advances in technology and construction techniques require revision of standards for building, fire, health, boiler, etc. The activity of the Illinois General Assembly in passing state laws which define, expand or limit municipal powers must be reviewed so that their impact on City of Chicago government may be made known to local legislators.	33,257
C. Opinions, Departmental Counseling	Provide City Departments with counseling and formulate opinions relative to their day-to-day activities.	City agencies and departments receive the advice of the Department in the day-to-day conduct of municipal affairs to assure that they are carried out in accordance with prevailing law. Formal legal opinions are rendered upon request of operating agencies.	159,914
II. Civil Litigation			
A. Personal Injury and Property Damage	Appear and defend the City, its officers and agencies in litigation relating to claims of injury or property damage.	More than 1,600 personal injury and property damage cases are filed against the City of Chicago annually. Allegations range from official misconduct to negligent operation of a City vehicle or defective sidewalks and streets. Claims against the City require aggressive defense so as to minimize the cost of these matters. Approximately 2,000 such cases will be disposed of during 1974.	487,576

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
B. Extraordinary Remedies and Land Acquisition	Appear and defend all cases challenging official conduct or validity of existing ordinances. File condemnation actions for land required by City agencies.	The validity of the Chicago Zoning Ordinances is frequently challenged by those desiring to develop real estate in a manner at variance with the uses prescribed in the Zoning Code. This Department is charged with the responsibility of defending the Zoning Code and all other City ordinances when they are challenged. The Department appears and defends City officials against whom legal action is brought to compel their action or enjoin them from performing their responsibilities. Condemnation cases are filed by the Department on behalf of the City of Chicago to secure real property which is necessary and desirable to fulfill municipal services.	$ 301,179
C. Collecting Debts owed to the City	Prepare and process correspondence and litigation for collecting debts owed to the City.	Delinquent water bills, delayed payment for inspectional services, foreclosure of liens placed on property to recover the cost of extraordinary municipal services relating to the property and claims for damage done to City owned property constitute the bulk of the collection efforts of this Department. City agencies request Law Department assistance in collection efforts when their own procedures have failed to produce a satisfactory return. More than $1 million is collected annually by this activity.	70,420
D. Investigation Activities	Verify or refute allegations of injury, extent of liability, legitimacy of the cause of action. Special process serving.	Department investigators prepare a report on all personal injury suits against the City, interview witnesses, photograph the site, secure hospital records and doctors' statements and interview potential witnesses. Investigative staff is also utilized to secure service of process in those cases requiring emergency court hearings or where customary service has failed to ascertain the whereabouts of litigants.	240,202
E. Other Cases	Institute litigation in instances where the City's rights require judicial action. Defend all other cases.	Many new service programs and activities require judicial review and approval. This Department appears in court to justify local governmental involvement in these activities.	38,181

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
III. Ordinance Prosecution			
A. Building, Housing, and Fire Code Cases	Prepare, file and prosecute cases of alleged violations of Chicago safety ordinances.	The City's program to arrest and eliminate slum and blighted housing conditions requires litigation in those cases where attempts to secure voluntary compliance have been unproductive. Approximately 17,000 such cases will be disposed of by City attorneys during 1974. Remedies solicited from the court range from a request for the building to be demolished because of its extreme deterioration to a fine for those cases of minor safety hazards.	$ 900,440
B. Traffic Cases	Prosecute cases involving violation of State motor vehicle laws or City traffic ordinances, to promote respect for and adherence to traffic regulations.	Chicago's position as the safest major city in the nation is due in a large part to the public awareness that Traffic Court prosecution is a certainty for those who disregard traffic regulations. More than 2 million parking tickets and in excess of 1 million moving violations are prosecuted annually.	580,268
C. Ordinance Enforcement Activities	Prepare, file and prosecute, at the request of City departments and inspection agencies, all violations of the Municipal Code.	Illegal dumping, air pollution, consumer fraud, private use of the public way, operating a business without a license, possession of an unregistered weapon, sale or display of obscene materials are but a few of the large number of ordinance violations which are discovered by City departments and forwarded to this Department for legal action. A suit for fine is the customary course of action. In select and aggravated situations, however, a suit for injunctive relief to abate the conduct is employed.	210,259

IV. Administrative Hearings			
A. Personnel Matters	Prepare charges and present departmental evidence before the Police Board or the Civil Service Commission in cases in which an employee's conduct is alleged to be detrimental to departmental discipline or efficiency. Present City's medical testimony and other briefs in Workmen's Compensation cases.	Employees with Civil Service status may not be removed from their position without charges being filed and a hearing held to determine "cause" for removal. At the request of City agencies, this Department prepares those charges and presents the relevant facts in hearings conducted before the Police Board or the Civil Service Commission. Employees injured while in the course of their officially assigned duties are covered by Workmen's Compensation and this Department annually disposes of more than 500 Workmen's Compensation claims before the Illinois Industrial Commission.	$ 257,991
B. Utility Rate Matters	Represent the City as a user and its citizens as customers in utility rate cases.	Public utilities must justify any rate or tariff increases at hearings conducted before the Illinois Commerce Commission, the Interstate Commerce Commission and the Federal Power Commission. Members of this Department participate in each matter filed. Justifications for proposed rate changes presented by the utilities are challenged at appropriate hearings by members of this Department who cross examine witnesses and present additional information to aid the Commission in its consideration of the proposed rate increases.	132,381
C. Other Hearings	Prosecute or defend the City and its officers before all other legally constituted administrative hearing agencies.	Liquor license cases, hearings before the Zoning Board of Appeals, hearings before the U. S. Civil Service Commission, proceedings involving the Wage and Price Stabilization Board, and numerous other matters are presented annually to various administrative agencies constituted by law to provide due process hearings in many varied fields of municipal law.	65,852

V. Appeals and Review	Provide review of all departmental trial activity and prepare abstracts, briefs and arguments for Appellate review.	The Department prosecutes appeals of important legal questions to those federal and state courts of appellate jurisdiction. Appeals filed by or against the City demand the sophisticated legal attention of attorneys with appellate practice experience. Emerging home rule concepts demand forceful and enlightened advocacy of City of Chicago cases as well as involvement in important home rule appeals filed by or against other municipalities. In 1974 more than 100 cases will be briefed and argued by this Department before the Illinois Supreme and Appellate Courts and the federal courts of appellate jurisdiction.	$ 317,338

COMMISSION FOR THE REHABILITATION OF PERSONS

1974 Operations Plan—Summary

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
I. Inpatient Rehabilitation	Treatment of alcoholics to help them to become sober, gainfully employed, productive individuals.	It is estimated that there are 235,000 alcoholics in the city of Chicago. It is anticipated that 675 males and 250 females will be admitted to the inpatient program in 1974.	
A. Medical Services	Examining all applicants to determine whether they should be admitted to the program. Providing proper treatment for health problems of those admitted.	The medical staff will perform thorough examinations on 1,025 applicants to decide on the most appropriate treatment. A proper medical plan will be developed for each of the admitted patients. The medical staff will refer 100 applicants to other facilities which are suited to handle their specific ailments. Approximately 550 patients will be treated for secondary problems such as diabetes, malnutrition, bronchitis and heart conditions. 350 patients will be given temporary glasses to use at the Center and 175 will be referred for permanent eyeglasses.	$ 372,471.
B. Mental Health Services	Providing mental health services to inpatients to break the self-destructive cycle of the alcoholic and return him to society as a productive person with a greater sense of personal, family and civic responsibility.	Staff will interview 1,650 applicants to determine the most appropriate treatment. All inpatients will be admitted to a group for limited term therapy. Mental health staff will refer 625 applicants to other agencies which are more suitable for handling their problems.	180,696.
C. Additional Inpatient Services	Providing vocational counseling, recreation, Alcoholics Anonymous, spiritual guidance and educational services. Alcoholism is generally accompanied by other problems such as lack of a job, inability to use spare time effectively, and a feeling of loneliness. To help patients make a satisfactory adjustment, services which deal with these problems are provided.	It is estimated that 225 male and 50 female inpatients will secure direct employment through the efforts of vocational counselors. In addition, 90 male and 125 female inpatients will be referred for some form of public assistance. 600 patients will receive information on the General Education Development Program. All patients will have available printed materials and will view films which will educate them about alcoholism. The recreation program provides over 120 different handicrafts and activities and numerous indoor and outdoor sports and games for all patients. It is estimated that 900 inpatients will attend open A.A. meetings and 650 will attend closed discussion A.A. meetings. It is expected that 350 of these patients will remain A.A. members after discharge from the program.	49,657.

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
II. Outpatient Clinic	Provides a broad range of outpatient services to former patients and others.		
A. Aftercare	Provides follow-up services for former resident patients. As needed, services such as medical evaluation, counseling, religious guidance, vocational counseling or A.A. are provided.	It is anticipated that 50% of all former inpatients will eventually use one or more of these outpatient services. In 1974, it is expected that 6,000 services will be performed for former patients at the clinic. Of these it is expected that 2,900 will be medical services, 1,850 supportive visits, 700 for examinations and prescriptions and 550 for additional counseling. In addition, it is anticipated that 3,000 former patients will attend A.A. meetings at the Center.	$ 43,723.
B. Outpatient Rehabilitation	Provides all services except residency for those who do not need inpatient care, or cannot leave their jobs or families.	It is anticipated that 2,500 services for persons who have never been inpatients will be performed by the outpatient program in 1974. These will include 1,600 medical services and 900 support or counseling services. It is expected that 700 new patients will be admitted to the outpatient program.	42,245.
III. Education, Information, Training and Research			
A. Education and Information	To inform the community about the problem of alcoholism and explain and make better known the treatment programs available.	The staff plans to participate in 150 lectures and seminars and 15 television and radio shows. In addition to providing greater awareness of the problems of alcoholism, this should result in the referral to the center of persons in need of its services. It is anticipated that the outpatient clinic will refer 125 persons to other agencies and will answer 2,000 requests for information.	20,218.
B. Employee Counseling	To provide counseling, guidance and training to City of Chicago employees concerning alcoholism and related problems.	Provides for an increase in job efficiency by elimination of work impairing problems.	46,522.
C. Training	To provide training for those who deal with alcoholism.	In 1974, we plan to provide training and supervision for 4 psychiatric residents, 2 social work students and a psychology intern.	19,770.
D. Research	To add to the existing body of knowledge about alcoholism and to evaluate the rehabilitation program.	It is anticipated that four major research studies will be conducted during 1974.	30,772.

1974 Operations Plan—Summary—Continued

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
II. Education, Information and Research			
A. Education and Information	Providing consumer education and information through speeches, exhibits, radio and television announcements, and personal contact with consumers and consumer groups. This program alerts the individual to various types of abuses in the market place and serves to instruct them to make purchase decisions based on their needs.	The Department maintains exhibits providing consumer information at various locations with a high degree of exposure to consumers. A complaint and information booth will be located at retail grocery markets throughout the City. These generate inquiries and an increased awareness of the Department and its services. For 1974 it is estimated that 125 presentations on matters of consumer interest will be given. The Department expects to develop new consumer aid publications and to distribute nearly 200,000 pamphlets to consumers during the year.	$ 30,257
B. Research	Gathering data and performing analyses to provide basic information for consumers, and provide data for increasing effectiveness of Department operations.	Voluntary open code dating on most perishable products was an important element of the Department's 1973 program. Research was directed toward type of commodity to be dated, standardization of dating method and shelf surveys to evaluate voluntary compliance. In addition, the Department formalized its periodic food commodity price survey by conducting field surveys on commodity prices every week, in Chicago retail markets. The summary of average retail prices is made available to the public. In 1974 departmental research will develop guidelines for toy safety enforcement and will study new methods of uniform package labeling.	32,584
III. General Support	Administration, supervision and clerical activities necessary to sustain departmental operations not attributable to specific program areas.	In addition to the normal administrative and supervisory functions necessary to support departmental operations, the Department will initiate use of a micro-film system which will increase filing and recovery effectiveness, also assuring greater security for Department records.	142,872

DEPARTMENT OF STREETS AND SANITATION

BUREAU OF SANITATION

1974 Operations Plan—Summary

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
I. Solid Waste Collection and Disposal			
A. Refuse Collection	Improving the environment of the City by providing at least weekly pickup of refuse from residences and other locations in the City as specified in the Municipal Code.	The Bureau will collect approximately 1,185,000 tons of refuse in 1974. This represents the refuse from approximately 871,400 households and 550 public schools.	$41,050,709
B. Refuse Disposal	Provide sanitary disposal of refuse through incineration and/or landfill while adhering to environmental control standards. The Bureau is responsible for disposing of the material it collects as well as that collected by some other City agencies.	The Bureau will dispose of 888,000 tons of refuse at the City-owned and operated incinerators; 15,000 tons at private incinerators; 215,000 tons through a contract transfer/landfill operation and 93,000 tons by direct haul to private landfills. It is expected that the City will receive $120,000 in revenue from the sale of steam generated as a by-product of the incineration process. It should also receive $100,000 in revenues from the sale of metals separated from the incinerated residue.	11,016,143
C. Bulk Collection	Provide collection of bulk material, such as discarded appliances and furniture from residences at least once a month and remove materials abandoned on public ways.	The Bureau will collect approximately 60,000 tons of bulk material in 1974.	3,155,377
D. Bulk and Debris Disposal	Provide sanitary disposal of collected bulk material through landfill, shredding and/or incineration while adhering to environmental control standards. The Bureau strives to recover the optimum amount of resources from collected bulk materials, giving consideration to economic as well as ecological factors.	The Bureau will dispose of 25,000 tons of bulk material at City-owned and operated grinding stations and incinerators, 10,000 tons through a contract transfer/landfill operation and 30,000 tons by direct haul to private landfills. Also 90,000 cubic yards of street debris will be disposed of at private landfills. The Bureau expects to receive $25,000 in revenue from the sale of metals removed from the collected bulk.	429,492
II. Debris and Weed Control			
A. Weed Control	Reduce the pollen in the air and improve the appearance of the City by cutting, spraying and removal of weeds from City parkways and vacant lots, and in other areas where necessary.	During the weed season (May-October) an estimated 11,000,000 square yards of public ways, vacant lots, and other areas will be cleared of weeds.	162,387

BUREAU OF SANITATION—Continued

1974 Operations Plan—Summary—Continued

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
B. Lot Cleaning	Enhance the appearance of vacant land in the City by clearing debris and discouraging dumping.	The Bureau will remove bulk items and other debris from 4,800 lots during 1974.	$ 595,066
C. Litter Collection	Providing litter baskets throughout the City for the convenience of the public in disposing of litter-type material and collecting this material, thus improving the appearance of City streets.	The Bureau will place and maintain litter baskets on the streets at locations where high pedestrian flow and heavy volumes of litter could potentially exist.	491,596
D. Street Cleaning	Improve the environment of the City by the removal of dirt and debris from the streets through the use of mechanical sweepers, flushers, and hand cleaning as required.	To provide street cleaning activities on a monthly to bi-monthly basis for residential areas, and twice-weekly to daily on main arterials.	5,976,016
III. Dead Animal and Rodent Control			
A. Dead Animal Removal	To eliminate potential spreading of disease by the removal and disposal of all dead animals in the City as soon as possible.	The Bureau will remove over 168,000 dead animals during 1974.	106,168
B. Rodent Control	Reduce the potential danger of rodent bites and spreading of disease by reduction of the rodent population in the City.	A treatment of gassing and baiting will be provided for rodent infested alleys on a systematic and "as needed" basis to a minimum of 25,000 blocks. An elementary school course about rodent control will be developed for both private and public schools.	519,549
IV. Snow and Ice Control	Provide for the safe movement of traffic by controlling ice, and removing snow from main arterial and secondary streets, when required.	It is difficult to forecast the amount of this activity required, but past experience indicates that this function requires an average of 275,000 man-hours of work per year, and the planned allocation is based on this average.	2,250,000
V. General Support			
A. Administration	Bureau administration and supervision not identifiable with any specific program element.		447,008

Research and Development	Provide the Bureau with better management and operational systems and procedures by analyzing Bureau operations as well as planning and analysis of management and informational system.	The Bureau will be working on such projects as a supplemental fuel processing system; an investigation of various analytical approaches to route scheduling; the automation of the information reporting/resources allocation system, and continuing research in the field of resource recovery.	$ 81,800
C. Engineering and Technical Services	Plan, direct, and supervise the design and construction of major engineering projects. Plan and coordinate the maintenance of the City solid waste reduction, transfer, and Ward yard facilities. ELECTRICAL CONSTRUCTION CAPITAL ACCOUNT

The Electrical Construction Capital Account is established for the purpose of constructing, maintaining and repairing street lighting and other public electric facilities, and for the purpose of purchasing and maintaining a stock of material and supplies in connection therewith, the expense of which is to be reimbursed from appropriations of City funds, from funds of other governmental agencies or by private persons.

This account shall be maintained and used subject to the conditions and limitations of Sections 7-24.1 to 7-24.10 of the Municipal Code of Chicago and the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing material and services, including for incidental and overhead expense, not to exceed the following percentages: Forty per cent of the total definitive direct labor charges plus a rate not to exceed fifteen per cent of the material and other charges; the overhead rates will be determined by audit and approved by the Chairman of the Committee on Finance, City Comptroller and the Budget Director; further provided that charges for the use of trucks, compressors, mixers and other rolling and mechanical equipment shall be made on a unit rate per day or other unit as shall be determined by the Commissioner of Streets and Sanitation and approved by the Comptroller. Such unit rate or other basis of charge shall be determined and shall be adjusted from time to time on the basis of actual cost for furnishing the use of such equipment, which cost shall include expense incidental to the maintenance, housing and operation of such rolling and mechanical equipment and an appropriate charge for depreciation. The rates or other basis as determined from time to time shall be reported to the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Electrical Construction Capital Account to a depreciation reserve fund and expended therefrom for the replacement of rolling and mechanical equipment.

This account shall be maintained and used subject to the conditions and limitations of Section 7-24.1 to 7-24.10 of the Municipal Code of Chicago and to the conditions and limitations herein set forth.

Charges shall be based on the total cost of furnishing the services including not to exceed forty percent for overhead and incidental expenses, provided that the overhead and incidental expenses, engineering and drafting furniture, machinery and equipment used in the furnishing of services shall be charged for at fair rates as determined by audit and approved by the Chairman of the Committee on Finance, the City Comptroller and the Budget Director. Personnel transferred in this budget to the Public Works Revolving Fund from the former Bureau of Architecture and Building Maintenance shall be limited to an overhead charge of five percent. Upon approval, the rates or other basis as determined from time to time shall be filed with the Committee on Finance of the City Council showing the various details included as parts of the total rate or other basis.

A reserve for depreciation shall be set up for all charges for depreciation included in the costs. Amounts equivalent to the periodic charges for depreciation shall be transferred from the general cash of the Public Works Revolving Fund to a Depreciation Reserve Fund by the City Comptroller and expended therefrom for the replacement of equipment; including automotive equipment.

Expenditures are authorized for all items as may be necessary, as shall enter into or become a part of the cost of furnishing the services herein authorized.

BUREAU OF FORESTRY, PARKWAYS AND BEAUTIFICATION

1974 Operations Plan—Summary

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
I. Beautification			
A. Public Ways	Planting trees, shrubs, flowers and performing other landscaping functions to beautify public ways.	The Bureau plans to plant 30,000 trees in public ways during 1974. Species to be planted will be selected on the basis of reduced maintenance costs as well as aesthetic considerations. Landscape shrubs and 100 flower beds consisting of 220,000 flowers will be planted in 1974.	$ 597,750
B. City-owned Facilities and Offices	Initial landscaping of City-owned facilities for beautification purposes. Providing plants for City offices. Planting trees around City buildings and facilities and providing flower boxes around public buildings.	The Bureau plans to provide landscaping services to the Northwest Incinerator and other Bureau of Sanitation facilities. The Bureau will place 40 potted trees and 650 window flower boxes around City Hall, the Chicago Public Library and various Police and Fire Department facilities.	130,567
C. Special Events and Community Projects	Providing forestry and horticultural services in connection with public shows, displays and other events, as well as community beautification projects.	The Bureau will participate in the development of parades, flower shows, civic displays and several neighborhood projects.	9,892
D. Operation of Nursery	To provide a source of trees for planting.	The nursery will provide 10,000 trees for planting in public ways in 1974. In addition, 30,000 trees will be planted for future transplantation.	230,403
E. Operation of Greenhouse	To provide a source of plants and seasonal flowers for beautification.	The greenhouse will grow all plants and flowers to be used in the Bureau's 1974 beautification activities.	184,873
II. Removal of Dead, Diseased, Dangerous and Undesirable Trees			
A. Public Ways	Removal of trees to prevent hazardous conditions, to reduce the spread of tree diseases and trees determined to be undesirable because of species, form, location or condition.	Although there are an estimated 100,000 trees in public ways that should be removed to upgrade quality and reduce future maintenance requirements, operations will concentrate on removing hazardous trees and preventing the spread of Dutch Elm Disease.	
1. Removal Above Ground	Topping, felling, cutting and stacking trees, and hauling away for disposal.	Bureau estimates that 25,000 trees in public ways will require removal during 1974 to alleviate immediate hazard or prevent the spread of Dutch Elm Disease.	1,957,035

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
2. Stump Removal	Physical removal of remaining tree parts to a level of 6″ to 8″ below ground level and pick up of resultant debris.	The number of stumps to be removed will be equal to the number of trees removed.	$ 345,650
B. Other Areas	Removal of trees to prevent hazardous conditions and to reduce the spread of tree diseases.	The Bureau may be called upon to remove dead, diseased or dangerous trees from City-owned facilities or other areas. Because this activity is responsive in nature, it is difficult to estimate the amount of Bureau resources that will be required. The cost of this kind of work is usually reimbursable to the Forestry Fund.	.....
III. Maintenance of Trees and Landscapes			
A. Public Ways			
1. Tree Trimming	Selective removal of portions of a live tree for the benefit of the remainder of the tree or to eliminate a dangerous or undesirable condition.	The Bureau plans to trim 100,000 trees in 1974. This is done in conjunction with long-range plans of the Bureau to trim each tree once every 5 years. Trimming required as a result of hazardous situations is included in the emergency response category and is not accounted for here.	2,526,570
2. Spraying	The application of chemicals to plants to prevent the spread of disease or insect infestation.	The major effort will be the spraying of trees to prevent the spread of the Dutch Elm Disease infestation.	73,244
3. Other Maintenance	The performance of a broad range of duties designed to keep all vegetation in the public way growing in a desirable manner in accordance with Bureau standards.	The Bureau is responsible for maintenance of 455 acres of boulevards and associated parkways. The activity involves seeding, mowing and watering lawns, removing and controlling weeds, etc.	928,609
B. City-Owned Facilities and Other Areas	Landscape maintenance and tree trimming to keep vegetation in City-owned facilities and special community projects growing in a desirable manner.	The Bureau is responsible for maintenance of landscape at City-owned facilities. In addition, the Bureau has the responsibility for maintaining special projects developed in conjunction with the Department of Public Works, Department of Urban Renewal, Model Cities and other agencies.	69,718

PROGRAM ELEMENT	OBJECTIVE OR ACTIVITY DESCRIPTION	BASIC IMPACT, OUTPUT OR ACTIVITY LEVEL	PLANNED ALLOCATIONS
IV. Emergency Response	The completion of work in response to immediate hazardous situations and the removal of debris resulting from an emergency operation.	Because of the uncertain nature of storms and other emergencies, it is difficult to forecast the amount of this activity required. However, past experience has indicated that this function requires an average of 65,000 man-hours of work per year, and the planned allocation is based on this average.	$ 578,708
V. General Support			
A. Administration	Departmental administration and supervision not identifiable with any specific program element.		825,692
B. Training	Providing training for Bureau personnel to assure high levels of performance and adherence to Bureau standards and safety requirements.	The Bureau plans to provide 10,000 man-hours of training for its personnel in 1974. The Bureau maintains a training facility at Edgebrook Community Center. When not used for training purposes, the Edgebrook facility is used by community organizations. During 1973, 380 events and meetings were scheduled by such groups.	97,603
C. Disposal of Debris and Recovery of Wood Fiber	Providing for disposal of logs, branches and brush from removal and trimming operations. Recovery of wood fiber as part of this process generates revenues for the City.	The planned removal and trimming activities will generate 60,000 tons of recoverable wood fiber in 1974.	442,517
D. Shops, Supplies and Facility Maintenance	Maintenance services and purchase of tools, supplies, etc., not identifiable with any particular program element.	This function includes stocking and maintaining a supply room and providing services such as maintenance of Bureau facilities and tools.	689,558

The Bureau plans to purchase two 67′ mobile towers, two jeep type service vehicles, two brush chippers, one nursery tractor with auxiliary equipment and necessary hydraulic tools for the new mobile tower-chip bin vehicles.	210,000

REGULATIONS GOVERNING THE ADMINISTRATION OF THE COMPENSATION PLAN AND EMPLOYEE BENEFITS FOR CLASSIFIED POSITIONS SET FORTH IN THE ANNUAL APPROPRIATION ORDINANCE.

A. PURPOSE

These regulations contain provisions governing compensation administration, and benefits for all classified positions under the jurisdiction of the Civil Service Commission in the departments and offices which are subject to control and regulation by and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago, except the positions in the Chicago Board of Education and City College of Chicago, Community College, District 508; and for all positions in the department which are exempted from the jurisdiction of the Civil Service Commission, but which are subject to the control and regulation by, and for which compensation is required to be fixed by the Mayor and the City Council of the City of Chicago.

B. ADOPTION AND DEFINITION OF THE COMPENSATION PLAN

(1) *Adoption of the Compensation Plan.*

(a) The salary schedules, including a range of pay for each class grade, as set forth in Schedules B, E, G and S, Base Salary Schedules for Civil Service classified positions, except positions with single rates, and positions in the exempt offices; Schedules C and T Longevity Salary Schedules for the positions covered by Schedules B and S, Schedule D Salary Schedule for Uniformed Firefighters and Sworn Police Personnel hereof shall constitute the compensation plan for the City employees in departments which are subject to the control of the Mayor and the City Council. The class grade for each class of positions as specified in Schedules A-1 and A-2 Civil Service Classified Positions adopted by the Civil Service Commission; and Schedule A-3 —Law Department and Schedule A-4—Board of Election Commissioners; as on file with the Civil Service Commission shall determine the salary range applicable to all positions of the class.

(b) Schedule A-2 lists all positions included in the Technical Service Salary Plan. The Civil Service Commission will maintain complete class specifications including minimum education and/or experience requirements for all positions in Schedule A-2. Before an employee may be appointed to a position in the Technical Service Salary Plan, he must be recommended by the appointing authority and his education and/or experience must be approved by the Civil Service Commission and the Mayor's Office as meeting the minimum requirements of the class specification.

(c) The salary schedule for Physicians and Dentists shall be as set forth in Schedule E. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at an entrance rate, and advancements by successive steps from each specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the period specified in the schedule for each category of Dentist, Medical General Practitioner or Medical Specialist. Additional compen-

sation may be paid for each Medical Practitioner upon his becoming Board Eligible and/or Board Certified as specified in Schedule E II. Supervisory responsibility will be recognized in Salary Schedule E III by the payment of additional compensation as delineated in the supervisory responsibility category.

(2) *Base Salary Schedules.*

Each base salary range in Schedules B, G, and S includes an entrance rate, an intermediate rate or rates and a maximum rate. The normal entrance rate shall be the rate to be designated in the salary schedule for all salaried positions. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from a specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the periods specified in the schedules.

(3) *Longevity Salary Schedules.*

Each longevity salary range in Schedules C and T includes longevity pay rates. After at least one year of satisfactory service at the maximum rate of a base salary range, each salaried employee may be advanced to the first longevity rate of that range when he has completed the required amount of continuous service with the City as indicated in Schedule C or Schedule T. Advancement by successive steps to the next higher rate or rates shall be made on the basis of satisfactory continuous service for at least the periods specified in the schedules.

(4) *Salary Schedules for Uniformed Firefighters and Sworn Police Personnel.*

The Salary Schedules for Uniformed Firefighters and Sworn Police Personnel shall be as set forth in Schedule D. Except as otherwise provided herein, the salary upon initial appointment to any position shall be at the entrance rate and advancement by successive steps from each specified salary rate to the next higher rate shall be made on the basis of satisfactory service for at least the period specified in the schedule. After at least one year at the maximum rate each uniformed Firefighter and Sworn Police Personnel may be advanced to the appropriate longevity rate of that range when he has completed the required amount of satisfactory continuous service as indicated in Schedule D.

(5) *Salary Rates Based upon Full-Time Employment.*

The salary rates prescribed in the salary schedules are fixed on the basis of full-time service for normal work weeks of 35 to 40 hours, except as indicated otherwise for certain classes in Schedules A-1, A-2, A-3, and A-4 which are on file with the Civil Service Commission. For positions which are professional, supervisory and executive in character, the normal work weeks of 35 to 40 hours generally apply, but the compensation is intended to be appropriate for the class regardless of variations in the time that may be required to satisfactorily fulfill the responsibilities of the positions.

(6) *Computation of Salaries of Part-Time Employees.*

A professional employee occupying a position in Schedule B, Schedule E, or Schedule S who is regularly employed on a continuing work schedule of less than 35 hours per week except those employees paid on an hourly basis, shall be compensated on the following basis:

(PT-A)—Authorized part-time service at three-fourths full time, eighty percent (80%) of rates prescribed for full-time employment.

(PT-B)—Authorized part-time service at one-half full-time, fifty-five percent (55%) of rates prescribed for full-time employment.

(PT-C)—Authorized part-time service at one-fourth full-time, thirty percent (30%) of rates prescribed for full-time employment.

Any other employee who is employed on a part-time schedule shall be paid for hours actually worked at an appropriate hourly rate equivalent to the entrance salary rate of the position or the hourly rate set forth in the Annual Appropriation Ordinance at the number of hours set forth in the Annual Appropriation Ordinance.

(7) *Continuity of Service.*

Service requirements for advancement within the salary ranges and for other purposes as specified in this resolution shall have the implication of continuous service with the City of Chicago, including the positions which are exempt from the jurisdiction of the Civil Service Commission. This means continuously paid employment without a break or interruption; provided that any absence on leave without pay or layoffs for 30 days or less or absence in individual cases adjudged eligible for duty disability compensation or absence on military leave as set forth in Chapter 24½, paragraph 151 of the Illinois Revised Statutes, shall not affect the continuity of service. Absence from the City service on leave without pay for periods in excess of 30 days, all suspensions, time after layoffs for more than 30 days and all absences without leave shall be deducted in computing total continuous service. All separations, discharges and resignations not followed by reinstatement within one year, shall interrupt continous service and shall result in the loss of all prior service credit. Time on a civil service reinstatement list of more than one year, where at least one offer of re-employment has been made and waived or refused, shall interrupt continuous service and shall result in the loss of all service credit. Personnel who are paid by voucher shall receive no credit for continuity of service for the period they are paid by voucher.

Any employees of the City who have rendered service to the County of Cook, the Chicago Park District, the Forest Preserve District, the Chicago Housing Authority, The Metropolitan Sanitary District of Greater Chicago, the State of Illinois, The Chicago Board of Education, City College of Chicago, Community College District 508, and the Chicago Transit Authority, shall have the right to have the period of such service credited and counted for the purpose of advancement within the longevity salary schedules, provided that the above interpretation of continuous service shall apply.

Seasonal employment of less than 120 calendar days in any year shall not be credited toward continuity of service.

Non-seasonal employees who work a minimum of eighty (80) hours per month shall be credited with continuity of service for the time worked.

(8) *Insurance Coverage.*

In providing for individual or family employee hospital and medical care insurance as set forth in the Annual Appropriation Ordinance under code .042, each company that provides hospital and medical insurance coverage shall first be approved by the Mayor and the City Comptroller. The benefits provided for in policies to be issued by approved companies shall all be comparable in order that each employee will receive comparable benefits for

the premium paid; and policy provisions and rates shall all be approved by the Mayor and the City Comptroller and the same shall be approved by the Corporation Counsel as to form and legality. The policy or policies shall be kept on file with the City Comptroller. Each insurance company shall report to the City Comptroller and the Committee on Finance of the City Council setting forth the number of employees insured, the name and amount expended on behalf of each employee or his beneficiaries and the number of claims pending together with the names of the claimants and the amounts claimed. Each company shall file said reports on or before the first day of August and the first day of February for the prior six months ending on June 30th and December 31st.

The enrollment period shall commence on January 2nd and shall terminate on January 31st of each year, except for new employees who shall be eligible for coverage upon request. All employees shall have not less than ninety (90) days accumulated employment with the City in order to be eligible for coverage. Changes in coverage within a group plan will only be made on the first of each month with the approval of the City Comptroller. Where more than one member of a family is employed by the City, only one coverage will be allowed.

C. Application and Interpretation of the Employee Benefit and Compensation Plan

(1) *Starting Rate on Initial Employment.*

Original appointments to any positions shall be made at the entrance rate of the salary range prescribed for the applicable class grade. In exceptional cases, upon recommendation by the department head, the Civil Service Commission, the Budget Director and the Chairman of the Committee on Finance of the City Council, or in the cases of positions in the Law Department by the Corporation Counsel, or in the Board of Election Commissioners by the Chairman thereof, and upon the approval of the Budget Director and the Chairman of the Committee on Finance of the City Council, original appointment may be made at a base rate above the normal entrance rate. Entrance above the base rate shall be based on the outstanding and unusual character of the applicants education, experience and training over and above the minimum qualifications specified for the class.

(2) *Starting Rate on Return to Duty.*

When an employee returns to duty in a position of the same class grade after a separation from the City service of not more than one calendar year, which separation was not due to discharge or resignation for cause, such employee shall receive the rate in the applicable salary range of the step corresponding to the step at which paid at the time of separation, and shall subsequently serve thereat for at least such additional period as required for advancement to the next higher step.

(3) *Starting Rate Following Promotion.*

When an employee is promoted from one position to a position in a higher class grade, except in Schedule E, such employee shall be paid at a rate that will provide an increase in salary of approximately five percent (5%) over the last salary paid, except that such employee shall be paid at least the entrance rate of the new position, even though this may produce an increase in excess of the aforementioned limitation. This action shall be effective on the first day of a pay period and shall not precede the receipt of the Personnel Action Report (CS14) at the Civil Service Commission.

(4) *Starting Rate on Reclassification of Position.*

In the event that a position is reclassified from one class of positions to another class of positions in the same class grade, except in Schedule E, the incumbent of such position when appointed to the new position by proper authority shall retain the salary he received in the former position.

In the event that the class grade for a class of positions is changed to a higher class grade by the appropriate authority, the incumbent of such position shall retain the rate of pay received in the former grade, and shall receive such rate of pay for such additional period as may be required for advancement to the next higher rate of pay, provided that such employees shall be paid at least the entrance rate for the new grade.

In the event that the class grade for a class of positions is changed to a lower class grade by the appropriate authority, the incumbents of such positions shall retain the salary received in the higher salary range.

(5) *Starting Rate on Appointment to a Position of a Lower Class Grade.*

In the event that an employee is appointed to a position of a lower class grade, than that of his former position, such employee shall be paid at the same step in the lower class grade as he had been paid in the higher class grade, provided that when an employee receives a civil service promotion to a position which is of a lower class grade than the position in which he is employed, the salary of said employee in the new position shall be based upon length of service in the position from which he is being promoted plus the length of service in the higher class grade position.

(6) *Anniversary Dates and Salary Schedule Advancement Following Salary Adjustment.*

After initial appointment to a classified position under the jurisdiction of the Civil Service Commission or to a position in the exempt offices, the anniversary date for an employee for purposes of advancement within a salary range shall be adjusted to coincide with the date of any action which increases the pay of the employee. Such action may be in the form of pay advancement within a salary range, promotion, reclassification of the position or change of class grade of the position.

(7) *Limitation of Salary Adjustments.*

Personnel actions which result in increases in pay by means of advancement within a salary range, promotion, reclassification of position, or change of class grade or position shall be made as set forth herein, provided that no employee shall receive the benefit of more than two such actions in any calendar year, unless a supplemental action is recommended by the department head and is approved (a) by the President of the Civil Service Commission for positions under its jurisdiction, or (b) by the appointing authority for positions in the exempt offices, and (c) the Budget Director and the Chairman of the Committee on Finance of the City Council.

(8) *Accumulation of Service in One Class of Positions.*

Whenever an employee accepts work of the same or of a higher level under a different class of positions and later returns to his former same or lower position, his term of employment under such different class of positions shall apply on and be added to his term of service in the same or lower

class upon his return to same, for the purpose of determining the appropriate rate of pay within the range appropriate for the class; provided his employment in the City service has been continuous as hereinbefore defined.

(9) *Recommendations for Pay Advancement within a Salary Range.*

The department head concerned shall recommend in writing to the Civil Service Commission the advance in salary of each employee in his department whose performance so merits and who has met the requirements for salary advancement within the range for his position in accordance with the service requirement specified in Section B dealing with the base salary schedules and longevity schedules. In the case of a classified position under the jurisdiction of the Civil Service Commission this recommendation shall include a certification that the employee has a performance rating of not less than 70, as computed in accordance with the Performance Rating Guide issued by the Civil Service Commission. In cases where the department head intends to withhold a salary increase and where the employee's overall performance rating is 70 or above, the department head shall communicate in writing at least fifteen (15) days prior to the effective date, to the Civil Service Commission the reasons for such proposed action and the Civil Service Commission shall review and approve or disapprove such action in writing.

The effective date of any advancement within the Compensation Plan shall be at the first day of the next pay period following the date of advancement is recommended and authorized as provided herein and approved by the Civil Service Commission or by the appointing authority for positions in the exempt offices.

D. Prevailing Rate Positions

A prevailing rate (PR) position is hereby defined as one for which the rate is established under acceptable evidence of the wage prevailing in industry. Such positions are usually craft, labor or trade positions, and are not paid under the provisions of the Compensation Plan.

In the event that the pay basis for a position is changed from a prevailing rate basis to a salary schedule in a class grade, the incumbent shall receive the lowest rate in the salary schedule that will not result in a decrease in salary. The Compensation Plan provisions shall thereafter govern.

In the event that an employee is appointed from a position paid on a prevailing rate basis to another position classified and paid under the Compensation Plan, such employee shall be given credit for the time served in the former position in determining the salary rate, provided that the duties performed in the new position shall be in the same line and character of work as the duties performed in the former position; further, that any increase in salary shall not exceed five per cent (5%), and provided further that the employee shall in no case receive less than the minimum rate of the salary range of the new position. The applicable Compensation Plan provisions shall thereafter govern.

Part-time employees who have worked at least fifty per cent (50%) of full time in the prior calendar year and PT-C employees shall be granted vacation leave on a prorated basis.

Such vacation leave will be computed on the basis of time earned during the prior calendar year. Vacation leave earned will be determined by dividing the number of months worked in the prior calendar year by twelve (12) and then multiplying by the number of yearly vacation leave days based on service. Any fraction will be rounded off to the nearest whole number of days.

Severance of employment prior to the use of all or any part of such sick leave terminates all rights for compensation hereunder.

(5) *Extended Sick Leave.*

Vacation and sick leave periods may be combined, but only in the event that long continued sickness of the employee warrants such course. Such request shall be submitted in the appropriate form.

C. The Director of Revenue is hereby authorized, for good cause shown by affidavit, to grant extensions not in excess of sixty (60) days for payment of such taxes and the making of such return, in which case no penalty shall be added to the amount due and payable if said tax is paid within the extension period granted by the Director. All taxes which are unpaid after the 20th day of the month upon which they fall due shall bear interest at the rate of one-half of one percent (½%) per month, or fraction thereof, notwithstanding the granting of an extension by the Director.

200.3-5. Interest and Penalties. All taxes imposed by this ordinance and remaining unpaid after delinquency, including any deficiency in the payment of taxes, shall bear interest at the rate of one percent (1%) per month, or fraction thereof, and the delinquent taxpayer shall be liable for said tax and interest and, in addition thereto, unless the Director of Revenue determines that the delinquency is not due to any fault on the part of the taxpayer, the said delinquent taxpayer shall be liable for a late payment penalty of ten percent (10%) of the amount of the underpayment.

200.3-6. Duties of Department and Director of Revenue. It shall be the duty of the Department of Revenue to collect and receive the tax imposed by this ordinance. The Department shall keep an accurate and separate account of all such tax payments received by it showing the name and address of the taxpayer and the date of each payment. The Director of Revenue is hereby empowered to adopt and promulgate, and to enforce, rules and regulations relating to any matter or thing pertaining to the administration and enforcement of the provisions of this ordinance, including provisions for re-examination, correction and amendment of all returns. The Director, or any agent or employee designated in writing by him, is hereby authorized to examine the books, papers and records of any employer or alleged employer during regular business hours, in order to verify the accuracy of any return made, or if no return was made, to ascertain the tax imposed by this ordinance.

200.3-7. Registration. A. Every employer subject to the tax imposed by this Chapter, shall within ten (10) days after the effective date of this ordinance, or within ten (10) days after he commences business within the City of Chicago, as the case may be, file in the office of the Department of Revenue a certificate setting forth the name under which such business is, or is to be, conducted or transacted, and the full name or names and address or addresses of the individual or individuals conducting or transacting the same, unless the party so certified is a corporation or trustee, in which event it shall set forth its said principal office or place of business and when and where incorporated or organized. Said certificate shall be executed and duly acknowledged by the person or persons so conducting or intending to conduct said business or by the president or secretary of the corporation, as the case may be.

B. In the event of a change in the identity of an employer, or termination of his operations, a similar certificate setting forth the facts with respect to such change or termination shall be filed in the office of the Department of Revenue within ten (10) days thereafter.

200.3-8. Credits and Refunds. A. Whenever it appears to a taxpayer that an amount of tax, interest or penalty has been paid in error to the Department of Revenue by him, whether such amount be paid through a mistake of fact or an error of law, not later than three (3) years from the date upon which such payment was made, such taxpayer may file a claim for credit or refund with the Department of Revenue on forms provided by said Department for that purpose, provided, however, that no credit or refund shall be made of any tax, the amount of which has been determined and assessed by the Director pursuant to Subsection 200.3-9A, if such tax was paid after the determination and assessment became final. No credit shall be allowed for any amount paid by such taxpayer unless it appears that he bore the burden of such amount and did not shift the burden thereof to another.

B. Any credit or refund that is allowed under this Section shall bear interest at the rate of one-half of one percent (½%) per month, or any fraction thereof, from the date when the erroneous payment for which credit or refund is being allowed was made to the Department of Revenue, until a credit memorandum is issued or a refund is paid.

C. A claim for credit or refund shall be considered to have been filed with the Department of Revenue on the date upon which it is received by the Department, and receipt of any claim for credit filed under this Section shall be acknowledged by the Director or any designated person on his behalf, said receipt to describe the claim in sufficient detail as to identify it, and to state the date upon which the claim was received by the Department.

D. As soon as practicable after a claim for credit or refund is filed, the Director of Revenue, or his designate, shall examine the same and determine the amount of credit or refund due, if any, and shall issue a Notice of Tentative Determination of Claim and notify the claimant of such determination. If the taxpayer disagrees with the determination, he shall file a protest and challenge thereto within twenty (20) days after the date of Notice of Tentative Determination of Claim has been mailed to him. Upon receipt of such protest within the 20 days allowed, the Director of Revenue, or his designate, shall fix the time and place for a hearing thereon, giving notice to the claimant thereof, not

less than five (5) days prior thereto. At any hearing held as herein provided, the Tentative Determination of Claim shall be prima facie correct and the burden shall be upon the protesting taxpayer to prove that it is incorrect. Upon the conclusion of the hearing, a decision shall be made by the Director and notice thereof given to the taxpayer. The taxpayer may seek judicial review of the Director's decision in the manner provided for determinations and assessments by Subsection 200.3-9A of this Chapter. In the event no protest or challenge to the Tentative Determination of Claim is filed within the twenty (20) day period hereinabove set forth, said notice shall thereafter become and operate as a final determination.

E. The Director of Revenue may in his discretion issue a letter of credit to a taxpayer who may be able to use said credit in the foreseeable future, or a refund certificate in lieu of a credit memorandum on application by a person who cannot use said credit, or sell or assign the same to another taxpayer. Refund certificates shall be numbered serially as they are issued and shall be paid in the order of their issuance from funds that are appropriated to the Department of Revenue for that purpose.

200.3-9. Enforcement. A. If it shall appear to the Director of Revenue that any employer has failed to pay any tax, interest, or penalty as and when required by the provisions of this ordinance or by any regulation of the Director, or if the amount of any tax payment made by an employer for any calendar quarter, or other period, as deemed by the Director to be incorrect in that it does not include all taxes payable for such calendar quarter or period, or if the Director shall find that the collection of any taxes which have accrued but are not yet due will be jeopardized by delay, and declares said taxes to be immediately due and payable, or if it shall appear to the Director that he has made any final assessment which did not include taxes payable by the employer for the periods involved, or if it appears to the Director that any employer has, by reason of any act or omission or by operation of law, become liable for the payment of any taxes, interest or penalties not originally incurred by him, the Director may in any of the above events determine and assess the amount of such taxes or deficiency, as the case may be, together with the interest and penalties due and unpaid, and immediately serve notice upon such employer of such determination and assessment and make a demand for payment of the assessed tax together with interest and penalties thereon. If the employer incurring any such liability had died, such assessment may at the discretion of the Director be made against his personal representative. Such determination and assessment by the Director shall be final at the expiration of twenty (20) days from the date of the service of such written notice thereof and demand for payment, unless such employer shall have filed with the Director a written protest and a petition for a hearing, specifying its objections thereto. Upon the receipt of such petition within the twenty (20) days allowed, the Director shall fix the time and place for a hearing and shall notify the petitioner thereof. The Director may amend his determination and assessment at any time before it becomes final. In the event of such amendment the employer affected shall be given notice thereof and an opportunity to be heard in connection therewith. At any hearing held as herein provided, the determination and assessment that has been made by the Director shall be prima facie correct and the burden shall be upon the protesting employer to prove that it is incorrect. Upon the conclusion of such hearing a decision shall be made by the Director either canceling, increasing, modifying or affirming such determination or assessment and notice thereof given to the petitioner. Such notice shall contain a statement by the Director of the cost of the certification of the record computed at the rate of 5c per 100 words. The record shall consist of the notices and demands caused to be served by the Director, the original determination and assessment of the Director, the written protest and petition for hearing, the testimony introduced at such hearing, the exhibits produced at such hearing, or certified copies thereof, the decisions of the Director and such other documents in the nature of pleadings filed in the proceeding.

B. The Circuit Court of Cook County shall have the power to review the final administrative decisions of the Director of Revenue rendered pursuant to Subsection 200.3-9A and Subsection D of Section 200.3-8. The provisions of the Administrative Review Act (Ill. Rev. Stat. 1973, paragraphs 264 through 279); and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply to and govern all proceedings for the judicial review of such final administrative decisions of the Director. The term "administrative decision" is defined as in Section 1 of the "Administrative Review Act." The Director shall not be required to certify the record to the Circuit Court unless the party commencing such proceedings for review shall pay to the Director the cost of certification of the record as provided in this subsection. The Director, or his designate, upon receipt of such payment, shall prepare and certify to the court a true and correct typewritten copy of all matters contained in such record. Upon receipt from the Clerk of the court of a copy of any decision affecting a decision of the Director, the Director shall enter such order in accordance with such decision.

C. Whenever any person shall fail to pay any tax as herein provided, the Corporation Counsel shall, upon the request of the Department of Revenue, bring or cause to be brought an action to enforce the payment of said tax on behalf of the City of Chicago in any court of competent jurisdiction.

D. If the Mayor, after hearing held by or for him, shall find that any person has willfully evaded payment of the tax imposed by this Chapter, he may suspend or revoke all city licenses held by such tax evader. Said person shall have an opportuity to be heard at such hearing to be held not less than five (5) days after notice is given to him of the time and place of the hearing to be held, addressed to him at his last known place of business. Pending notice, hearing and finding, any license issued by the City of Chicago possessed by said person may be temporarily suspended. Any suspension or revocation of any license shall not release or discharge said person from his civil liability for the payment of the tax, nor from prosecution for such offense.

200.3-10. Corporate Fund. All proceeds resulting from the imposition of the tax under this Chapter, including penalties, shall be paid into the treasury of the City of Chicago and shall be credited to and deposited in the corporate fund of the City.

200.3-11. Violations and Penalties. Any person found guilty of violating, disobeying, omitting, neglecting, or refusing to comply with, or resisting or opposing the enforcement of any of the provisions of this Chapter except when otherwise specifically provided, upon conviction thereof shall

be punished by a fine of not less than Fifty Dollars ($50.00) nor more than Three Hundred Dollars ($300.00) for the first offense and not less than Fifty Dollars ($50.00) nor more than Five Hundred Dollars ($500.00) for the second and each subsequent offense in any 180-day period, provided, however, that all actions seeking the imposition of fines only shall be filed as quasi-criminal actions subject to the provisions of the Illinois Civil Practice Act (Ill. Rev. Stat. 1973, ch. 110, par. 1 et seq.). Repeated offenses in excess of three within any 180-day period may also be punishable as a misdemeanor by incarceration in the county jail for a term not to exceed six months under the procedure set forth in Section 1-2-1.1 of the Illinois Municipal Code (Ill. Rev. Stat. 1973, ch. 24, par. 1-2-1.1) and under the provisions of the Illinois Code of Criminal Procedure (Ill. Rev. Stat. 1973, ch. 38, pars. 100-1, et seq.) in a separate proceeding. A separate and distinct offense shall be regarded as committed each day upon which said person shall continue any such violation, or permit any such violation to exist after notification thereof.

200.3-12. Severability. If any provision, clause, sentence, paragraph, section, or part of this Chapter, or application thereof to any person, or circumstance, shall, for any reason, be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, said judgment shall not affect, impair or invalidate the remainder of this Chapter and the application of such provision to other persons, firms, corporations, public agencies or circumstances, but shall be confined in its operation to the provision, clause, sentence, paragraph, section, or part thereof directly involved in the controversy in which such judgment shall have been rendered and to the person, firm, corporation, public agency, or circumstances involved. It is hereby declared to be the legislative intent of the City Council that this Chapter would have been adopted had such unconstitutional or invalid provision, clause, sentence, paragraph, section, or part thereof not been included.

WHEREAS, Dr. King was born in Atlanta, Georgia on January 15, 1929, one of the three children of Rev. Martin Luther King and Alberta Williams King, and attended Booker T. Washington High School and Morehouse College; and

WHEREAS, In 1947 he was ordained a minister in his father's church in Atlanta and later did graduate work at Crozer Theological Seminary, the University of Pennsylvania, and Harvard University, and was awarded a Doctor of Philosophy degree in Theology from Boston University; and

WHEREAS, In 1954 he was named pastor of a Baptist Church in Montgomery, Alabama, and in December of 1955 he accepted the presidency of the Montgomery Improvement Association and led the 382 day boycott by blacks of Montgomery's buses; and

WHEREAS, Dr. King's courageous leadership of that historic boycott, with his Christian self-restraint in the face of violence, inspired freedom-loving men and women throughout the world; and

WHEREAS, Dr. King's success in desegregating the Montgomery buses was soon followed by formation of the Southern Christian Leadership Conference of which he was named president, and, in this capacity, he successfully led the civil rights movement against discrimination in restaurants, theaters, department stores, colleges, transportation and employment; and

WHEREAS, These efforts, combined with the leadership of Presidents John F. Kennedy and Lyndon B. Johnson, resulted in the enactment by Congress of the Civil Rights Act of 1964, which was followed by the selection of Dr. King as the Nobel Peace Prize Winner; and

WHEREAS, In 1965 Dr. King conducted a massive voter registration drive in Alabama, climaxed by a march from Selma to Montgomery and the passage of another Civil Rights Act, and followed by continued actions by Dr. King against war and discrimination, terminating with his tragic assassination on April 4, 1968; and

The above elevations as fixed shall be measured from Chicago City datum as established by the City Council of the City of Chicago.

The roadway(s) of the several street(s) heretofore specified between the points herein described, also the roadway(s) of all intersecting alley(s) extended from the curb line to the street line on necessary sides of said specified street(s) between the points herein described, after removing trees therefrom, shall be so graded by cutting or filling and compacted by rolling with a roller of ten (10) tons weight that after the grading of the roadbed(s) is completed and the payment herein described placed thereon, the surface of the finished pavement at the center of the roadway of each of said specified street(s) shall be at the elevation of the top of the curbing herein described; and the surface of the said finished pavement at the summits in the gutters between catchbasins and adjoining the roadway face of the curbing shall be three (3) inches below the top of said curbing, and at the catchbasin inlets in the gutters adjoining the roadway face of the curbings shall be nine (9) inches below the top of said curbing. The slope of the gutters adjoining the roadway face of said curbing shall be uniform from the summits to the catchbasin inlets.

A transverse section of the surface of the finished pavement and gutters shall be an arc of a circle passing through the said gutter elevations and the elevation of the center of said finished roadway at every part of the roadway of said specified street(s) between the points herein described.

In all intersecting alley(s) herein specified at the street lines of said specified street(s) the surface of the finished pavement adjoining the curbing shall be even with the top of the curbing and the surface of the finished pavement at the center of the roadways of said alley(s) shall be three (3) inches below the top of the curbing; and a transverse section of the surface of the finished pavement at the street lines of said specified street(s) shall be an arc of a circle passing through the surface of the pavement adjoining said curbing and the surface of the pavement at the center of said finished roadway(s). The surface of the said pavement thence shall slope gradually to meet the surface of the finished pavement at the curb lines of said specified street(s).

On the sub-grade as formed and compacted shall be spread an insulation course of limestone screenings. Said insulation course shall be one (1) inch in thickness and shall extend across the full width of the roadbed.

On the insulation course as formed and compacted shall be spread a foundation course consisting of a layer of crushed limestone of the best quality, broken so as to pass through a ring of four (4) inches internal diameter and held on a ring of two (2) inches internal diameter. The stone spread shall be well graded as to sizes. It shall be evenly distributed so as to leave no pockets filled with the small size stone. This layer shall be thoroughly rolled with a self propelled three wheel roller, weighing not less than ten (10) tons. The rolling shall begin at the edge of the pavement and the roller shall move parallel with the center line of the roadway. The roller shall progress gradually towards the center of the roadway, uniformly lapping each proceeding track, covering the entire surface with the rear wheels and continuing until the stone does not creep or move ahead of the roller. After the crushed limestone has been thoroughly rolled and keyed, limestone screenings shall be applied gradually over the surface and the rolling continued until sufficient screenings have been applied to completely fill the interstices. The screenings shall be swept in with hand brooms to properly fill the voids. The spreading and rolling shall continue until no more screenings will go in dry. No excess of screenings shall be used before applying water. Immediately after the voids have been filled with screenings, the macadam shall be sprinkled until saturated, the sprinkler being followed by a roller. More screenings shall be added if necessary. The sprinkling, sweeping and rolling shall continue until a grout shall be formed of the screening and water that will fill all voids, and form a wave of grout before the wheels of the roller. The quantity of screening and water necessary to fill the voids shall be determined by the engineer and shall be sufficient to provide a rough, granular surface. The rolling, at all times, shall begin at the sides, and then progress toward the center, thoroughly covering the entire surface with the rear wheels. When compacted, this layer shall measure not less than five (5) inches in thickness.

Upon the finished waterbound macadam base there shall be uniformly applied by an approved type of spreader box, two (2) inch stone to a depth providing a total base course thickness of three (3) inches after final compaction. After shaping to grade and rolling with a ten (10) ton roller three quarter (¾) inch stone chips shall be broadcast and broomed into the surface voids at the rate of fifteen (15) pounds per square yard. Liquid asphalt at a temperature of 140 degrees F. shall be uniformly applied by a pressure distributor at a rate of one and one-half (1½) per gallons per square yard. Stone chips shall again be broadcast and broomed uniformly over the surface at the rate of fifteen (15) pounds per square yard. Liquid asphalt shall be uniformly applied by a pressure distributor at the rate of one-half (½) gallon per square yard. Stone chips shall be broadcast again at the rate of ten (10) pounds per square yard. The surface shall then be thoroughly rolled. The asphalt shall conform to the State Specification for Emulsified Asphalt R. S. 2, Page 640 of Illinois Standard Specifications for Road and Bridge Construction adopted January 2, 1952.

On the said foundation course shall be placed an asphaltic concrete surface course two (2) inches in thickness consisting of an asphaltic concrete mixture conforming to the standard requirements of the Illinois State Division of Highways for Type 1-11 Asphaltic Concrete adopted January 2, 1952, as follows: The asphaltic mix shall consist of a mineral aggregate bonded with the asphaltic cement. The mineral aggregate shall consist of the best quality of crushed gravel or crushed stone in sizes graduated in accordance with the following table, viz:

Asphaltic Concrete Surface Course, Fine Dense Graded Aggregate Type

Passing ½ inch sieve	95-100%
Passing ½ inch, retained on No. 4 sieve	45- 65%
Passing No. 4 retained on No. 10 sieve	10- 30%
Passing No. 10 retained on No. 40 sieve	5- 18%
Passing No. 40 retained on No. 50 sieve	7- 22%
Passing No. 80 retained on No. 200 sieve	5- 13%
Passing No. 200 sieve	4- 8%
Bitumen	5- 7%

(Table 45.11 p. 247 State Specifications)

The asphaltic cement shall conform with the standard requirements of the Illinois State Division of Highways for Grade P.A. 6 Paving Asphalt, adopted January 2, 1952. It shall have a flash point (Cleveland open cup) 500 plus Fahrenheit. It shall have penetration at seventy-seven (77) degrees Fahrenheit of seventy-five (75) to eighty-five (85), and at least ninety-nine and five-tenths (99.5) per cent of bitumen shall be soluble in carbon disulphide.

When fifty (50) grams of said paving asphalt is heated in an uncovered tin box five and one-half (5½) centimeters in diameter and three and one-half (3½) centimeters in depth, and is held at a temperature of three hundred and twenty-five (325) degrees Fahrenheit for five (5) hours, then it shall have lost not over two (2) per cent by weight and the penetration of the residue thus obtained shall not be less than seventy (70) per cent of the penetration before such heating, said penetration being determined as herein described. Said paving asphalt shall have a ductility of not less than one hundred (100) centimeters being determined by elongating a briquette Dow form of said paving asphalt at uniform rate of five (5) centimeters per minute at a temperature of seventy-seven (77) degrees Fahrenheit.

The paving asphalt and mineral aggregate shall be mixed when heated between three hundred (300) and three hundred fifty (350) degrees Fahrenheit in an approved mixer to produce a homogenous mixture in which all particles of aggregate are coated uniformly. The heated mixture shall be delivered to the pavement in trucks with approved clean tight dump bodies. The temperature when delivered at the street shall be between two hundred fifty (250) and three hundred fifty (350) degrees Fahrenheit. Upon arrival the asphaltic mixture shall be spread upon the prepared base at a uniform depth and consistency so that the thickness when compacted as herein described will be two (2) inches.

Immediately after the asphalt surface course shall be spread it shall be connected thoroughly and uniformly with a three (3) wheel roller or a tandem roller. The asphalt paving mix shall be dumped first upon approved steel dump pans outside of the area on which it is to be spread. Immediately thereafter it shall be distributed into place with shovels and spread with rakes in layers of uniform density and correct depth, unless a spreading machine is used. If a spreading machine is used it shall be of a type approved by the Board of Local Improvements. Immediately after the surface course mixture is placed it shall be compacted thoroughly with a three-wheel roller or a tandem roller. One (1) or more three-wheel rollers and one (1) or more tandem rollers will be required. The actual number of such rollers to be determined by the Engineer in accordance with the progress of the work. If the production of the asphalt plant delivered to the pavement exceeds seventy-five (75) tons per hour additional rollers shall be furnished as directed by said Engineer. After a final rolling the asphalt surface course shall at all points have a density of not less than ninety-five (95) per cent of the maximum possible density of a voidless pavement composed of the same materials in like proportions.

IV-2. POZZOLANIC BASE COURSE

On the subgrade as formed and compacted shall be placed and compacted to the depths shown on the plans and as herein provided.

(a) The pozzolanic base course shall be constructed in layers not more than six (6) inches (compacted) in thickness. When the thickness specified is more than six (6) inches the base course shall be constructed in two (2) or more approximately equal layers. Each layer shall be deposited, full-lane width, directly on the prepared subgrade or on the preceeding layers of compacted mixture with a mechanical spreader box of a type approved by the Engineer. Where the base must be constructed in more than one layer, the previous layer shall be maintained in a moistened condition until the succeeding layer is placed. After having been tested for density and approved by the Engineer, the previous layer shall be raked to a depth of one (1) inch and dampened with water immediately prior to placing the succeeding layer so that the layers are in it together. The second layer must be placed the same way as the first layer. The Engineer of the Board of Local Improvements shall determine when the base course shall be constructed in one or more lifts. When placed, the pozzolanic mixture shall be free from segregation and shall require minimum blanding and manipulation. Immediately after placing the mixture shall be compacted with a pneumatic-tired roller, or with a vibratory compactor, or with a combination of the two. The base course, shall be given a final rolling with a three wheel or tandem roller. If the pozzolanic base is placed on gradual sub-base, the pozzolanic base shall be compacted to at least 100% of maximum density except that is more than one layer is required the first layer shall be compacted to 97% of maximum density and succeeding layers shall be compacted to 100% of maximum density.

IV-3. MATERIALS.

(b) All pozzolanic mixture shall be placed and compacted the same day as it is mixed. The entire base course within the increment of work shall be completed within 24 hours.

(c) Except in specific cases, when otherwise permitted by the Engineer, the pozzolanic base course mixture shall be placed between April 15 and October 15 and only when the temperature is 40 or more.

(d) The three wheel or tandem rollers shall weigh from 6 to 10 tons and shall weigh not less than 200 pounds nor more than 325 pounds per inch width of roller. The compression developed by the pneumatic tired roller shall be not less than 225 pounds per inch of tire width.

IV-4. MATERIALS.

All materials shall conform to the following requirements:

(a) Lime. High Calcium hydrated lime or monohydrated dolomitic lime shall be used. The lime shall have a total oxide (calcium and magnesium) equivalent to not less than 85% and a loss of ignition of not more than 25%. Monohydrated dolomitic lime shall have only the calcium component hydrated. Exposure of the lime to air shall be held to a minimum. If more than 10% of the lime has reverted to a carbonate, it shall not be used.

(b) Fly Ash. The pozzolan, prior to dampening thereof to alleviate the dust problem shall comply with the requirements of AST Designation: C-379 or C-432 with 10% maximum loss on ignition. The tests prescribed by this specification shall be performed at the option of the Engineer. At the time of mixing the pozzolan shall be in a finely divided condition such that 95% shall pass a ½ inch sieve when dry-sieved.

(c) Coarse Aggregate. The coarse aggregate shall be gravel, crushed stone, crushed slag or boiler slag meeting the following requirements:

(1) Gravel, crushed stone or crushed slag. The gradation for all three materials, shall be as follows:

(d) Samples: The contractor, shall at his own expense, submit to the Engineer a minimum of 25 pounds of lime, 100 pounds of fly ash and 150 pounds of the coarse aggregate which he proposed for use in the pozzolanic mixture. The lime, when sampled, shall immediately be placed in a sealed container and shall be kept sealed. Samples shall be furnished at least 45 days prior to the construction of the pozzolanic base course. The samples submitted will be tested for acceptance of materials and also to determine whether or not they will produce a satisfactory mixture; and will be used to determine preliminary proportions for the mixture composition.

IV-5. COMPOSITION OF MIXTURE.

(a) The lime, pozzolan and aggregate shall be proportioned within the following limits on a dry-weight basis:

	PERCENT BY WEIGHT OF TOTAL DRY MIXTURE	
Ingredient	*Gravel, Crushed Stone Crushed Slag or Aggregate Blend*	*Boiler Slag*
Lime	2- 5	2- 4
Pozzolan	8-16	15-30
Aggregate	79-90	56-78

(b) The actual proportions of lime, pozzolan, water and aggregate will be set by the Engineer before work begins and will be based on tests conducted on mixtures composed of samples of the constituent materials furnished by the Contractor. The right is reserved by the Engineer to make such changes in proportions during the progress of the work as he may consider necessary.

(c) The composition of the mixture shall be such that when molded into cylinders, cured and tested as stated in the following paragraph, each cylinder shall have a minimum compressive strength of 450 psi and a maximum weight loss of 14% after 12 cycles of freezing and thawing.

(d) Test cylinders shall be molded at the optimum moisture content and maximum density in accordance with AASHO Designation T-180, Method C, except that the 5 lift requirement is replaced with 3 lifts and no replacement of coarse aggregate (¾ inch sieve) is made. The molded specimens shall immediately be placed in an oven with forced air circulation for 7 days at 100-3 F. At the end of 7 days, the test cylinders for compressive strength testing shall be removed from the containers, allowed to cool to room temperature, soaked for four hours capped and broken for compressive strength within one hour of time of removal from water. The specimens to be tested for freeze-thaw resistance shall be cured in the same manner as the strength specimens without the 4 hour soaking period. After curing the specimens shall be subjected to 12 cycles of freezing and thawing in accordance with AASHO Designation D-560, Sections 5, 9 and 10 pertaining to specimen No. 2 (weight loss specimen).

IV-6. MIXING.

(a) The constituents of the mixture shall be accurately proportioned and thoroughly mixed in a mechanical mixer at a central mixing plant. The measuring devices for proportioning the mixer, either by volume or weight shall be of such accuracy that the proportions of the mixture based on total dry weight will be maintained within the following tolerances:

Fly Ash	+1.5 percent by weight
Aggregate	+2.0 percent by weight

(b) The equipment used must be provided by means, meeting with approval of the Engineer, for calibration and check tests of measuring devices. In all plants, the water shall be proportioned by weight or volume and there shall be means by which the Engineer may readily verify the amount of water per batch or the rate of flow for contin-

uous mixing. The contractor shall provide a platform scale and make arrangements for the use of a certified truck scale of sufficient capacity for calibration and periodic check tests of the feeders or measuring devices as needed during production.

(c) The mixer shall be capable of producing a uniform mixture. Mixing operations shall be continued until all ingredients are distributed evenly throughout the mixture and a uniform mixture, free of segregation, is obtained. The engineer shall be the sole judge of the adequacy of mixing. The mixer shall be capable of discharging the mixture without undue segregation. The moisture content at the time of mixing shall be such that the moisture content at the time of compaction will be within 85 to 110 percent of the optimum moisture determined.

IV-7. PRIME COAT.

On the prepared base after removing, by sweeping or otherwise, any loose material, dirt or debris, shall be applied a prime coat of bituminous material at the rate of 0.15 to 0.30 gallons per square yard, using asphalt: MC-0.

Prime Coat for the above and its application shall conform to the following:

(a) This material shall be homogenous and shall show no separation of asphalt after thorough mixing, within 30 days after delivery, provided separation has not been caused by freezing. It shall coat the aggregate being used in the work to the satisfaction of the engineer and shall conform to the following requirements:

(c) A tank thermometer to determine the temperature of the contents of the tank and a tachometer to enable the driver to maintain the constant speed necessary for the correct application of the specified quantity of bitumen. The cost of this material together with the cost of labor, equipment and other costs required in placing such materials, shall be included in the unit price bid per square yard of pavement.

Upon the primed pozzolanic base course shall be placed two (2) courses of asphaltic concrete and shall meet the same requirements as previously stated.

VI-I. This item shall consist of a mixture of aggregate (crushed stone) and Bituminous material, plant mixed and constructed on a prepared subgrade in accordance with the requirements of the Board of Local Improvements. The base course shall be laid according to the lines and grades as established by the Engineer. The thickness will be as shown on the standards or plans or as established by the Engineer.

VI-II. All materials shall conform to the requirements of the Standard Specifications for Road and Bridge construction, State of Illinois, adopted August 1, 1968 and the supplemental specifications in effect on the date of invitation for bids.

(a) The sources of supply shall be State approved. Satisfactory evidence shall be presented by the material supplier as to the ability of the source of supply to furnish the aggregate in proper quantity and meet the requirements as to grading and quality.

(b) Gradation of the aggregate shall meet the following requirements:

The Contractor may have the option of deviating from these requirements provided he receives the approval of the Engineer. The Contractor must notify the Engineer a sufficient time in advance of his operation.

(c) If approved by the Engineer, the material may be produced by blending aggregate from more than one source. The Components of a blend need not be of the same kind of material. The method of blending must meet the approval of the Engineer. The sources of material and the blending proportions shall not be changed during the progress of the work without written permission from the Engineer.

(d) The bituminous materials used in the mixture shall be asphalt of 85-100, 100-120 or 120-150 Penetration grade. The same grade of bituminous material shall be used throughout the work. The Engineer reserves the right to specify the grade to be used. The percentage of residual bitumen shall be 3 to 6%. The Engineer may make such changes in proportions during the progress of the work as he may consider necessary.

(e) *Samples and Tests:*

A ½ gallon sample of the bituminous aggregate mixture for each 5000 tons produced, shall be taken by the Engineer for extraction tests. A minimum of three samples shall be submitted. The sample shall be a composite sample taken from at least five (5) trucks. A one (1) quart sample of the bituminous material being used shall be taken by the Engineer at the same time the bituminous aggregate mixture sample is taken. The sample shall be taken from the line leading to the asphalt bucket or pug mill spray bar or directly from the asphalt bucket or spray bar. Paving asphalt shall be submitted in a one (1) quart friction top can.

(f) *Mixture Composition and Control Factors:*

The Contractor, at his expense, shall submit a sample of 100 pounds of the aggregate to the Engineer which he proposes to use in the bituminous

mixture. The sample shall be submitted at least three weeks prior to start of base construction. The aggregate sample shall be taken under the supervision of the Engineer. At the time of submitting the sample, the Contractor shall state the source of the aggregate and the source and grade of the asphalt that he will use. The sample submitted to the Engineer when mixed with the designated grade of asphalt shall produce a satisfactory bituminous mixture that will have a strength of at least 100 pounds greater than the minimum requirements shown on the plans. If the material will not produce a satisfactory mixture meeting this requirement, the Contractor shall submit a material that will comply. If the aggregate furnished for design purposes contains some crushed material, the Contractor shall submit with the sample a statement giving the percentage of plus No. 4 material that is crushed. Throughout the improvement this percentage shall be maintained within a minus 5 percentage points of this amount.

(g) The mix to be used shall be prepared as required by the appropriate state specification.

(h) The Engineer may order any tests that he may deem necessary to insure the quality of the work.

VI-III. *Construction Procedure:*

(a) Transportation of Bituminous mixes shall be governed by Article 46.14 of the Standard State Specifications.

(b) The subgrade shall be prepared as required in Section II of these specifications. The Contractor shall notify the Board of Local Improvements a sufficient time before laying the base course to allow for an inspection of the subgrade. The base course shall not be placed except in the presence of the Engineer or his representative.

(c) The base course shall be spread by an approved type asphalt spreading and finishing machine. The machine shall meet the requirements of Article 133.3 and its addendums of the State Specifications, or it may be a type approved by the Engineer.

(d) The base course shall be constructed only when the temperature in the shade is at least 40 degrees F. In specific cases, the Engineer may order a waiver of this limitation.

(e) The base course mix shall be delivered at a temperature of 225 degrees to 325 degrees F.

(f) The base course may be constructed in one or more courses, the decision shall be made by the Engineer for each project.

(g) The base course shall be compacted with three wheel rollers or tandem rollers weighing from 6 to 12 tons and shall not weigh less than 200 pounds nor more than 400 pounds per inch of width of roller. Vibrating rollers will be permitted if approved by the Engineer.

(h) The first layer of the bituminous mixture shall be compacted to a density of not less than 90% of the theoretical density. Succeeding layers or where one layer is used shall be compacted to a density of not less than 90%. The theoretical density shall be computed from the saturated surface dry specific gravity of the aggregate, and the specific gravity of the asphalt at 77 degrees F., or it may be determined by the high pressure air meter. The density of each of the finished layers of bituminous mixes shall be obtained from specimens furnished by the Contractor. Specimens shall be cut by the Contractor from the finished layer with a core drill. The diameter of a specimen shall in no case be less than 3⅞ inches nor more than 4 inches. Four specimens shall be taken for each days run for each layer. When directed by the Engineer, additional specimens shall be taken, but the total number from one day's run shall not exceed 20. The Contractor shall remove the specimens at locations designated by and in the presence of the Engineer and transport them to a location designated by the Engineer. Extreme care shall be taken to avoid damage to the specimens. The holes caused by the removal of the specimens shall be refilled immediately with bituminous aggregate mixture meeting these specifications, compacted and finished to the satisfaction of the Engineer. The cost of the work required in taking and transporting the specimens and in refilling the holes caused by removal of the specimens shall not be paid for separately, but shall be included in the unit price bid per square yard for pavement.

(i) The stability of the completed base course shall be not less than 900 pounds as required by the State of Illinois.

(j) *Tolerance in Thickness:* It is the intent that the base course shall be constructed to the nominal thickness shown on the plans. Thickness determinations shall be made at such points as the Engineer may select. If thicknesses less than 95% of nominal thickness are encountered, the extent and depth of the deficient area shall be determined and Bituminous Mixture Base Course or Bituminous Concrete Surface Course shall be placed by the Contractor at his expense to bring the deficient area of the base to nominal thickness. If Bituminous Concrete Surface Course is used, it may be placed as part of the surfacing operation.

(k) On the finished base course shall be laid a bituminous concrete course of 1½ inches in thickness, the surface course shall be constructed in accordance with the requirements of Section IV-12 through IV-9 of these Specifications.

P.C.C. Sidewalk removal and replacement where necessary. Concrete crosswalks shall be built according to the Standard City Code of the City of Chicago.

The Concrete shall conform to Class X Concrete (as described in this ordinance for curbs and gutters).

All existing catchbasins which are to be abandoned are located at the intersections of said streets. Where existing catchbasins are to be abandoned, the outlet pipe connection from the catchbasin to the sewer shall be plugged and properly sealed and the corbel courses broken down and the catchbasin cleaned and filled with suitable material.

Additional masonry to be constructed, where necessary.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, John J. Touhy was first elected Alderman of the 27th Ward, located on the City's west side, in 1917 and served in this legislative body until his election as a member of the Chicago Sanitary District in 1926. He served as a Trustee of the Sanitary District from 1926 until 1951 when he was elected to the Cook County Board of Commissioners. By his retirement in 1970 from the Cook County Board, John J. Touhy concluded fifty-three consecutive years of outstanding public service in various elected offices and had won the admiration, affection and esteem of all who had come in contact with him over the years; and

WHEREAS, John J. Touhy served his party with the same devotion, energy and talent as the Democratic Ward Committeeman of the 27th Ward from 1920 to 1968; and

WHEREAS, John J. Touhy utilized his position of civic leadership and the vast experience gained through long and productive public service to bring about community improvement and opportunity to the west side area he loved so dearly and served so well. By his unfailing support of civic, religious and charitable causes, although quietly undertaken, he did much to bring jobs, food, clothing and medical assistance to many less fortunate citizens in his community and throughout the City; now, therefore,

Be It Resolved, That the Mayor and members of the City Council of the City of Chicago, in meeting assembled this 27th day of February, A.D. 1974, publicly express their sorrow at the passing of former County Commissioner John J. Touhy, and further express their deep sympathy to his son County Commissioner John P. Touhy, and to his daughters Katherine and Margaret; and

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, Almighty God, in his Infinite Wisdom, has called to his eternal reward on February 9, 1974, James W. Campbell, a Patrolman in the Chicago Police Department, who was fatally wounded by two would-be robbers; and

WHEREAS, Patrolman Campbell was recognized throughout the Chicago Police Department as an exceptional policeman, exercising that professionalism and devotion to duty which serves to regenerate, support and continue the high standards of the Chicago Police Department. The annals of bravery are enhanced by the fine police work accomplished by Patrolman Campbell, who was shot four times from behind as he was cashing his paycheck at a currency exchange; and

WHEREAS, Mr. Campbell did not sacrifice his life in vain, but serves as an heroic example of all policemen who choose their careers with full knowledge that their service might at any moment demand the supreme sacrifice; we are again impressed with a greater appreciation of the valor of our City's policemen, who are called upon routinely to face hazardous situations; and

WHEREAS, The career of James W. Campbell manifested a devotion to duty and a commitment to service of the highest degree; now, therefore,

WHEREAS, Almighty God in His Infinite Wisdom has called to his eternal reward on February 22, 1974, Rabbi Louis Binstock; and

WHEREAS, Rabbi Binstock was a prominent religious leader who had been in the pulpit for 37 years at Temple Sholom, 3480 North Lake Shore Drive; and

WHEREAS, Rabbi Binstock received his D.D. and D.H.L. degrees from Hebrew Union College in Cincinnati. He served as president of the New Orleans Rotary Club before coming to Chicago; and

He was known for his dynamic pulpit oratory and his vigorous activity in the reform Judaism Movement, whose original aim as he defined it was "to interpret Judaism in terms of the modern world." He was the author of three books, "The Power of Faith," "The Road to Successful Living," and "The Power of Maturity" and numerous magazine articles; and

Rabbi Binstock was saluted by the Aldermen as a great spiritual leader, an orator and one who displayed a tremendous interest in local and city problems. It was noted that he had not only "preached" religion, he had lived it. He was characterized as having a dynamic personality, great leadership and a profound interest in matters affecting not only his congregation but problems of world wide concern. All agreed that not only Chicago but the world has lost a man who was committed to the solution of the many social ills presently confronting all citizens. It was also noted that he had been extremely interested in furthering the education of young people, that he had urged young people to become interested and active in politics as an "honorable" profession.

Honorable Richard J. Daley, Mayor, also spoke of the high regard he had held for Rabbi Binstock. The Mayor stated that the Rabbi did not wait to be asked for solutions, that he had volunteered many suggestions and ideas for improvement of public services. He expressed his gratitude for the help rendered to his administration.
